Demonstrations, Explanations and Answers

- Handheld? Mobile? Dual Band? Tri Band? UHF/VHF? Low Bands?
- What's a frequency? Band? Repeater?
- What kinds of Ham Radios are there?
- What do I need to know to choose and use a radio?
- What are simplex & duplex modes of transmitting & receiving?
- What type and what kind of display is good for me?
- What's the best antenna?
- What other accessories do I need and why?

2019 Feb 10, May 12, Aug 4, Nov 3 2019

Hands on Programming of UHF/VHF Radios

- Learn how to use a UHF/VHF radio.
- Program a UHF/VHF ham radio without using a computer
- Program your radio or one of our FT-60s for simplex and repeater frequencies
- Get on the air and use your radio (or our radio)
- Check in on a "Net" – we will hold two "directed nets"
- Tips to make sure your radio is always ready and working – weekly nets
- Learn transmit and receive protocols – when to transmit, what to say
- Resources: HamStudy.org, clubs, groups, repeaters, books and more!
